**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of claims 1-7 in the reply filed on 3/3/06 is acknowledged.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Abrums (US 5799792). With respect to claims 1 & 6, Abrums discloses the following:

- Base (Fig. 6, item 26)
- Wall extending up from base to form a pool therein (Fig. 6, item 28)
- First lip (Fig. 6, item 76, upper lip)
- Second lip (Fig. 6, item 76, opposite thereof of first lip on bottom 26)
- Lid corresponding to shape and size of base, including a retaining channel 32, 34 extending around the periphery thereof for releasably receiving said lips, as shown in Fig. 6, item 24

Art Unit: 3781

With respect to claim 2, Abrums discloses the lid retaining channel being formed by a lip edge extending from the periphery of the lid in an arcuate manner, as shown in Fig. 6, item 70 (close-up of container-lid interface, forming channel 32').

With respect to claims 3 & 4, Abrums discloses the lid releasably engaging the first and second lip, respectively (Fig. 6).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Abrums in view of Sponholtz (US 5670118). With respect to claim 5, Abrums discloses the lid being color-coded with the container (Col. 6, Lines 5-10), but does not disclose the lip being the only portion colored. However, Sponholtz teaches a container wherein the lip is the only color-coded portion of the container, thereby providing an alternate configuration that also carries out the same function as desired by Abrums in Col. 6, lines 5-10. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to modify the color scheme of Abrums such that only the lip was colored, as taught by Sponholtz, so as to provide a structurally and functionally equivalent alternative to identifying which lid goes with which container.

***Response to Arguments***

5. Applicant's arguments with respect to all claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
